**Chief Controller of Explosives,
5th Floor, CGO Complex,
Seminary Hills,
NAGPUR-440 006.**

Kind Attn: Mr. T.R. Thomas, Jt. Chief Controller of Explosives.

Dear Sirs,

Sub: PESO Website.

We are an Inspection Agency, rendering services for Third Party Inspection and Periodic Inspection under various provisions of the Petroleum Rules, Static and Mobile Pressure Vessels Rules. We have been in the profession for past 38 years and recognized by your Organisation as "Inspectors" and "Competent Persons" under the said rules for the past 17 years.

We routinely visit PESO's website and I would like to take this opportunity to give you our feedback. At the very onset I would like to say that PESO's website is an excellent tool and interface for the large populace of petroleum product licensees as well as the general public.

Display: The home page of the website is aesthetically pleasing. The colour scheme, and font is easy on the eyes as well as attractive. The various links to each page are both intuitive and arranged in a logical sequence.

Information: The news desk, organization's roles, objectivities, activities, responsibilities, work manuals, annual reports, photo gallery and other details in the site gives the visitor a very good idea of the PESO's proactive role in the development of India's basic infrastructure in the field of Petroleum and Explosives Safety. The "At a Glance" link is an extremely useful feature of PESO's website as it gives links to various acts, rules, and other information hosted is very informative for the existing licensees, new applicants and others seeking any information.

The Website gives the information about the Government Notifications, Draft Rules, Names of Officers and Addresses of Zonal and Circle offices, Area of jurisdiction, which is very useful. The information about the various Forms for application and Licences, Licence fees and due dates of licences, scrolling reminders benefits every one.

MEC ELEC INDUSTRIES

III FLOOR, KRISHNA SUDAMA NIWAS, SHIVAJI PATH, THANE - 400 602.

Tel.: 022 - 2542 4957, 2540 6767, 2540 2350 Fax: 91-22-2542 6650

Email: mecelec@mtnl.net.in

About the business related matter, the information about details of products stored under various licences is very useful for procurement, marketing, logistics and planning for a vast country like ours.

Suggestions: If you would like to seek any suggestions from us, we would request you to add the following in the public domain:

- Updating information regarding the status of applications and licences at frequent intervals.
- Online renewal of licences, wherever possible

The computerised system of processing of the applications and licences has certainly been beneficial to all. The system can be further improved by proper feeding of the data, without typographical errors and mistakes. The working and efficiency of the department has definitely improved since it has embraced e-technology.

Yours truly,
For Mec Elec Industries,

M.K. Divekar
C.E.O.
