All the pressure vessel fabricators approved under the SMPV (U) Rules, 2016

Sub: Modifications in existing licensed pressure vessels used for transportation of compressed gases- Reg.

Sir(s),

It is stated that pressure vessel fabricators are submitting applications for modification in the existing licensed pressure vessel used for transportation of Propylene / Propane / LPG / Butane / Butene / C4 Raffinate for enhancing the carrying of capacity of pressure vessel from 18 MT to 21MT. For such modifications, an additional new shell plate is to be inserted in between the existing shell plates by cutting and welding the pressure vessel.

In this regard, a meeting to understand the views as well as hazards involved in using such pressure vessels for transporting compressed gases at high pressure is proposed to be held on 02/09/2022. The details of the meeting are as follows:

Meeting with Mobile Pressure Vessel Fabricators
Hosted by Chief Controller of Explosives
